Description:

- Rent A Coder reminder: You MAY NOT post the final solution for this (and any) project before your bid is accepted and funds are fully escrowed. Anyone who does may have their account permanently suspended. However, you CAN post:
 - On programming projects: A prototype or functional demo...as long as source code is not provided.
 - On graphics projects: A watermarked and low-resolution version of the work.

I attempted to install the TinyMCE WYSIWYG editor, however I have been unsuccessful.

As a result, I am looking for a coder to assist me in the successful installation of the TinyMCE WYSIWYG editor.

I am looking for a quick turnaround.

I will provide my hosting information and Drupal login to the successful bidder.

If you have any questions, please let me know.

James

Platform:

My site is hosted at BlueHost and I use CPanel.

Deliverables:

- Complete and fully-functional working program(s) in executable form as well as complete source code of all work done.
- Deliverables must be in ready-to-run condition, as follows (depending on the nature of the deliverables):

[Si](#)

- a) For web sites or other server-side deliverables intended to only ever exist in one place in the Buyer's environment--Deliverables must be installed by the Seller in ready-to-run condition in the Buyer's environment.
- b) For all others including desktop software or software the buyer intends to distribute: A software installation package that will install the software in ready-to-run condition on the platform(s) specified in this bid request.
- 3) All deliverables will be considered "work made for hire" under U.S. Copyright law. Buyer will receive exclusive and complete copyrights to all work purchased. (No GPL, GNU, 3rd party components, etc. unless all copyright ramifications are explained AND AGREED TO by the buyer on the site per the coder's Seller Legal Agreement).

- All deliverables must be [uploaded to Rent A Coder](#) before the deadline(s) for this project...with no exceptions. If this contract makes it impossible for a competent person to do this, then [do not start this project](#)...but instead alert Rent A Coder of an [un-arbitratable, illegal](#) project.
- Remember that contacting the other party outside of the site (by email, phone, etc.) on all business projects < \$500 (before the buyer's money is escrowed) is a [violation](#) of both the software [buyer](#) and [seller](#) agreements. Rent A Coder monitors all site activity for such violations and can instantly expel transgressors on the spot, so we thank you in advance for your cooperation. If you notice a violation please [help out the site and report it](#). Thanks for your help.
